ART UNIT PAPER NUMBER

2173

SHORTENED STATUTORY PERIOD OF RESPONSE	MAIL DATE	DELIVERY MODE
3 MONTHS	04/26/2007	PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

If NO period for reply is specified above, the maximum statutory period will apply and will expire 6 MONTHS from the mailing date of this communication.

Office Action Summary

Application No.

10/687,291

Applicant(s)

BRANSON ET AL.

Examiner

Haoshian Shih

Art Unit

2173

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 05 April 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-6 and 8-20 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-6, 8-20 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

Attachment(s)

- 1) ☒ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☐ Information Disclosure Statement(s) (PTO/SB/08)
Paper No(s)/Mail Date _____
- 4) ☐ Interview Summary (PTO-413)
Paper No(s)/Mail Date. _____
- 5) ☐ Notice of Informal Patent Application
- 6) ☐ Other: _____

DETAILED ACTION

1. Claims 1-6 and 8-20 are pending in this application and have been examined in response to application filed on 04/05/2007.
2. Claim 7 is canceled by the applicant.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. **Claims 1-6 and 8-20 are rejected under 35 U.S.C. 102(e) as being unpatentable by Gegner et al. ("Gegner", WO 2003/104966 A3).**
3. As to **INDEPENDENT** claim 1, Gegner discloses selecting a subset of a first plurality of data objects based on a respective importance of each of the first plurality of respective data objects (pg3, line 12-21), wherein the first plurality of data objects are displayed in a main view; and copying the subset to a peek view (fig 5; main view with the plurality of data objects are on the right, and a peek view with the subset are on the left. pg8, line 11-13; displaying of the objects on a different display screen); and

replacing the first plurality of data objects in the main view with a second plurality of data objects, wherein the second plurality of data objects are different from the first plurality of data objects (pg.8, lines 7-13).

4. As to **INDEPENDENT** claim 6, Gegner discloses means for receiving a first plurality of data objects and a plurality of respective importance tags (pg3, line 12-21); and means for selecting a subset of the first plurality of data objects based on the importance tags (pg3, line 27-28; less important data objects are not selected) and based on a peek view associated with a pull command (fig 5; pg8, line 11-13; a subset of the objects are selected to display on a different screen); means for copying the subset from a main view to the peek view (fig 5; main view with the plurality of data objects are on the right, and a peek view with the subset are on the left. pg8, line 11-13; displaying of the objects on a different display screen); and means for replacing the first plurality of data objects in the main view with a second plurality of data objects, wherein the second plurality of data objects are different from the first plurality of data objects (pg.8, lines 7-13).

5. As to **INDEPENDENT** claim 11, Gegner discloses selecting a subset of a first plurality of data objects in response to a pull command from a peek view (pg8, line 11-13; a subset of the objects are selected to display on a different screen) wherein the first plurality of data objects are displayed in a main view; and copying the subset to a peek view (fig 5; main view with the plurality of data objects are on the right, and a peek view

Art Unit: 2173

with the subset are on the left); replacing the first plurality of data objects in the main view with a second plurality of data objects, wherein the second plurality of data objects are different from the first plurality of data objects (pg.8, lines 7-11).

6. As to **INDEPENDENT** claim 16, Gegner discloses selecting a subset of a first plurality of data objects in response to a pull command from a peek view (pg8, line 11-13; a subset of the objects are selected to display on a different screen), wherein the first plurality of data objects are displayed in a main view, copying the subset to a peek view (fig 5; main view with the plurality of data objects are on the right, and a peek view with the subset are on the left), replacing the first plurality of data objects in the main view with a second plurality of data objects, wherein the second plurality of data objects are different from the first plurality of objects (pg.8, lines 7-11) receiving an update to the first plurality of data objects, and modifying the subset in the peek view based on the update (pg4, line 15-21; pg8, line 11-14 as a different peek view are selected for displaying in an enlarged form, the main view updates to reflect the changes).

7. As to claim 2, Gegner discloses the selecting is in response to a pull command at the peek view (fig 5; pg8, line 11-13; a subset of the objects are copied to display on a different screen).

8. As to claims 3 and 8, Gegner discloses selecting the subset based on a size of the peek view (fig 3; pg3, line 27-29; objects are added/eliminated based on the size of the peek window).

9. As to claim 4, Gegner discloses receiving an update to the plurality of data objects; and modifying the subset in the peek view based on the update(pg 3, line 7-11; the displayed data objects reflects the updates on the display screen in the field of patient monitoring).

10. As to claim 5, Gegner discloses re-selecting the subset based on a change to the importance, wherein the receiving further receives the change to the importance (pg3, line 18-21).

11. As to claims 9 and 19, Gegner discloses means for copying the subset from the peek view to the main view in response to a push command associated with the peek view(pg4, line 15-17; pg8, line 11-13; objects from the peek view are imported to a different screen to display an enlarged form).

12. As to claims 10 Gegner discloses receiving an update to the first plurality of data objects; and modifying the subset in the peek view based on the update(pg 3, line 7-11; the displayed data objects reflects the updates on the display screen in the field of patient monitoring).

13. As to claim 12, Gegner discloses selecting the subset based on a plurality of importance tags associated with the respective first plurality of respective data objects, wherein the respective importance tags specify a ranking of the first plurality of respective data objects (pg3, line 18-22).

14. Claims 13, 18 are same in scope to claims 3 and 6, and are therefore rejected under same rationale.

15. As to claims 14 and 15 Gegner discloses receiving an update to the plurality of data objects; and modifying the first subset in the peek view based on the update (pg 3, line 7-11; the displayed data objects reflects the updates on the display screen in the field of patient monitoring).

16. As to claim 17, Gegner discloses selecting the subset based on a plurality of importance tags associated with the respective plurality of respective data objects, wherein the respective importance tags specify a ranking of the plurality of respective data objects (pg3, line 18-22).

17. As to claim 20, Gegner discloses sorting data in the subset in the peek view based on a sort rule associated with the data (pg3, line 18-21; the ordering of the hierarchically combined objects represents a form of sorting rule).

RESPOND TO ARGUMENT

18. Applicant's arguments filed on 3/29/3007 have been fully considered but they are not persuasive.

19. The applicant argues that Gegner does not teach or suggest "replacing the first plurality of data objects in the main view with a second plurality of data objects, wherein the second plurality of data objects are different from the first plurality of data objects," as recited in claim 1.

20. However, in contrast to the applicant's argument, the prior art of record (Gegner) discloses a plurality of data object groups by way of example (pg.6, lines 10-19). Gegner further suggests the replacing of the different data objects in the main view can be done by user selection of the plurality of data object groups and importing them on the main view area (pg.8, lines 7-13). The left-hand side of fig.5 can contain objects in fig.2; different data object groups are imported on the right-hand side of fig.5 can be done by user selection.

21. Having fully addressed the applicant's argument(s), the rejection to the claims still holds.

22. Independent claims 6, 11 and 16 include similar elements as claim 1; therefore they are rejected under similar rationale.

Conclusion

23. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

24. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Haoshian Shih whose telephone number is (571) 270-1257. The examiner can normally be reached on m-f 0730-1700.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Cabeca can be reached on (571)272-4048. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
